

DR PLATON COLD PLASMA

A quick and comfortable treatment that can help a variety of skin concerns and requires no downtime.

The Dr Platon cold (non-thermal) atmospheric plasma pen employs breakthrough plasma shower technology. It is one of the gentlest ways to treat problematic skin conditions and is especially effective for teenager and adult acne. It can be used for the face and body, as well as age management treatments.

Dr. PLATON
ULTRA PLASMA

SUITABLE FOR:

- Suppressing teen and adult acne and balancing sebum production (suitable from age 12 and over)
- Decreasing the symptoms of seborrhoea, eczema, atopic dermatitis, rosacea, psoriasis
- Reducing inflammation and related blemishes
- Brightening post inflammatory hyperpigmentation
- Achieving long-term anti-ageing
- Improving absorption of active ingredients by the skin by almost 24%

FEATURES AND BENEFITS

Plasma Shower technology transforms the main gases in the air between the device tip and the patient's skin – mainly Oxygen and Nitrogen – to cold plasma. As well as destroying acne bacteria, cold plasma can reduce inflammation and the symptoms of seborrhoea, eczema, atopic dermatitis, psoriasis and rosacea. It also accelerates healing, improves fine lines and wrinkles, and can help reduce pigmentation.

Traditional acne treatments can often be quite aggressive and painful, however treatments by Dr Platon cause minimal to no discomfort due to its adjustable plasma intensity, are quick to perform (10 minutes for face), are completely non-invasive and require no downtime!
